

## SUGGESTS ARMORY AS WAR MEMORIAL

National Guard Inspector Tells C. of C. Directors It Is Useful Monument.

Major Charles E. Bates, inspector-instructor for the third regiment of Oklahoma national guards, now here on a tour of inspection, was the principal speaker at the regular weekly meeting and luncheon of the directors of the chamber of commerce Friday noon at Hotel Tulsa.

Major Bates appealed to the directors to take an interest in the proposed memorial to soldiers and sailors, at length the proposition of erecting an immense concrete armory 400 by 250 feet to stand as Tulsa's memorial to dead soldiers and sailors.

Such an armory, he stated, could be used for scholastic athletic games in addition to serving as a drill ground.

Major Bates is a regular army officer and a member of the adjutant general's department.

## WANT METHODS ALTERED IN LEVYING CANAL TOLLS

WASHINGTON, June 20.—Efforts to get early enactment of legislation changing the system of levying Panama canal tolls was renewed in communications sent to congress by Secretary Baker, Governor Harding of the canal zone and Captain Sargent, marine superintendent of the coast. Proposed legislation failing in the last congress was recommended on the ground that unless tolls would be based on tonnage measured as to express actual service.

Pacific coast lumber interests who opposed the previous legislation may be expected to renew their fight, Captain Sargent said.

Captain Sargent declared that the lumber interests' argument of discrimination, under which objection to a proposed understanding apparently has exceeded the paramount influence in delaying legislation to date.

## WINNIPEG STRIKE LEADERS RELEASED; MAY END STRIKE

WINNIPEG, June 20.—Striking union leaders announced today they will end their strike calling off the general strike since six of their imprisoned leaders were released today, city, provincial and federal officials united in presenting to them evidences of falsehoods which they said had been traced to members of the central strike committee. Government officials met yesterday morning and showed them letters seized in Tuesday's raid on the labor temple.

"It is undoubtedly true that most of the members of the strike committee and a very large majority of the working men now on strike have been misled," the government officials announced after the conference. "We have been used as pawns by those directly behind the big union movement which is being promoted with revolutionary intent."

ONEIDA INDIANS WANT RIGHT TO SUE FOR FUND

GREEN BAY, Wis., June 20.—It became known here today that a representative of 2,669 Indians on the Oneida reservation in northern Wisconsin is in Washington seeking permission from Congress for the tribe to sue the United States government for interest accrued on the value of land originally reserved for the tribe in the state of Kansas, but later awarded to early settlers under homestead acts.

In 1904-05 an act of congress provided for payment to the Oneidas \$1.50 per acre for the 2,000,000 acres in Kansas, but allowed no payment of interest. The total compound interest would amount to between \$10,000,000 and \$10,000,000.

ARKANSAS JUDGE REFUSES PET REFERENDUM REQUEST

LITTLE ROCK, Ark., June 20.—It seems Judge G. W. Hendricks today rendered a decision in the effort to get the voters of Arkansas to accept the right to put on the ballot the recent Arkansas legislation in nullifying the prohibition amendment to the federal constitution. He sustained the dissenter of Attorney General Aruckle to the petition asking for a referendum on the action of the legislature.

The case will be appealed to the Arkansas supreme court at once. Judge Hendricks ruled that the legislative and referendum amendment to Arkansas constitution clearly distinguished between acts of the legislature and resolutions adopted by the legislature and that it makes no provisions for a referendum vote on resolutions adopted.

## If You're Sick Read This —If Not, Never Mind

Youth and beauty comes with smiles and it comes with good health! Ill, pale, cross people soon grow old, yet young in years. Here is a nerve builder, a strength renewer. It comes at last to the aid of the suffering men, women and children of malaria, gives you new vitality to endure these hot, sultry days, when fever is most threatening. Enrich your blood now by taking iron. "Nature's Pure Tonic," and don't suffer with indigestion. It will drag you down. ACID IRON MINERAL will build up your system and all stomach troubles will disappear as this wonderful tonic is taken three times a day, one-half teaspoonful at a time, of water. ACID IRON MINERAL is not a patent medicine and it contains no alcohol, no drugs of any kind. It is the most powerful iron tonic ever given to the medical world and yet it contains less acid than other medications on the market today. When you feel tired, sick and lack of vitality too run down to work, just take ACID IRON MINERAL and give your system plenty of iron to build on. Then you will begin to feel new strength taking hold, both mentally and physically. Your complexion takes on that healthy glow and that is a true sign of returning health. Get a bottle today and begin the sunflower plant. It has no equal in treating rheumatism, liver and kidney and all of woman's ills. Physicians are prescribing it daily as a building-up tonic for both old and young. To feel well is to be well. Begin by renewing your mind and body that is so rundown. Give it back the strength and newness of a perfect health that you have denied yourself so long. You will find ACID IRON MINERAL at Steinberg Bros. Drug Store.

Steinberg Bros. Drug Store  
and Miss Breeze will gladly tell you all about it.

MAIL ORDERS SOLICITED.

## Converted by Facts.

In the various articles appearing in the Page organs, wherein I have been quoted as opposed to Spavinaw, I never uttered a word in favor of Shell creek, these papers have used my name without any authority.

At first I was not in favor of voting the \$5,000,000 bond issue until

convincing me that Spavinaw is the only solution of the water question for Tulsa, and it is the most vital question the city has to face today in its battle for advancement.

I witnessed the fight at Fort Worth, Texas, for good water for a number of years, which was solved finally by laying a conduit to Lake Worth. The lake was built by damming up one fork of the Trinity river. This formed a lake of good water, which has enabled Fort Worth to get everything it went after, including an army cantonment and three aviation camps.

I am convinced that Tulsa will never hit her stride until she has an adequate supply of pure, cheap water and I am convinced that Spavinaw can produce it.

E. G. LONG.

## ACCUSERS ATTACKED SHARPLY BY PALMER

CONTINUED FROM PAGE ONE

ference to not signing the treaty, but that they walked out of their own accord.

**Lawson Makes Statement.**

J. B. Lawson, organizer of the union, declared Friday night that the Amalgamated association is recognized throughout the country by organized labor and that statements made by the German government to the effect that it is organized by the American federation of labor are false and unfounded. He further stated that employees of the company were led to believe that the Oklahoma Union railway company employees association was to be affiliated with organized labor but when the men learned this much was the case they walked out.

Lawson told a representative of the World Friday night that the Tulsa section, number 222 of the Amalgamated association would have a 100 per cent organization among employees of the Oklahoma Union shortly with which to force the issue.

It was reported in peace conference circles that the German government will make reforms for additional time in which to repair its

losses.

The retirement of Von Brockdorff-Ranzau and Herr Giesberts, and probably that of Dr. Bernburg from the cabinet is expected. Mathias Escherich presumably will take the place of Giesberts as the central leader in the cabinet.

**SIX MEMBERS OPPOSE SIGNING.**

WEIMAR, June 20, via London.—Six members of the cabinet, it is said, declared in a cabinet meeting for an absolute rejection of the peace terms. The ministers were said to have been Count von Brockdorff-Ranzau, Herr Giesberts, Herr Escherich, Doctor Bernburg, Herr Frese and Herr Goethen.

**NOSKE MAY BE MADE PREMIER.**

By The Associated Press.

GOBLINZ, June 20.—Gustav Noske, the minister of defense, will succeed Philip Scheidemann as head of the German ministry, according to a Weimar dispatch received here today. Mathias Escherich, the German aristocratic minister, will succeed Count von Brockdorff-Ranzau as head of the German peace delegation, the message adds.

Mr. Palmer came back with the assurance that Senator Frelinghuysen had visited New York detective agencies to find out if "they did not have something on Palmer." He assured the senator of making statements to newspapers regarding charges against him, and said there was little difference between making direct charges and repeating those alleged to have been made by others.

Lewis and Andrews also were accused of giving out statements purporting to be evidence and distorting the facts.

## WILL TRY FATHER FOR ASSAULT ON DAUGHTER

WEIMAR, June 20.—A poll of the various states of Germany with regard to their attitude on the peace terms was taken yesterday at Weimar, an Exchange Telegraph dispatch from Copenhagen says.

Hamburg, Bremen and Lubeck voted against signing. Wurtemberg and Baden were in favor of signing, while Bavaria and Saxony were undecided.

WEIMAR, June 20.—(Via London.)—A poll of the members of the various parties in the national assembly seems to show that the peace terms cannot fail to be accepted. The only socialist it is added, gave a considerable majority in favor of signing.

Special meetings, one for men only at the Boston avenue M. E. church and one for women only at the First Baptist church, will be held Sunday night by the Johnson-Hobbs evangelistic team, who are conducting a series of joint revival meetings for the two churches this week.

Morning services will be held at both churches as usual and each congregation will be addressed by its respective pastor.

Large audiences have attended the meetings, even though wet Wednesday when the rain interfered. The Rev. Johnson is assisted by the solo of the Rev. Hobbs.

but that they walked out of their own accord.

**Lawson Makes Statement.**

J. B. Lawson, organizer of the union, declared Friday night that the Amalgamated association is recognized throughout the country by organized labor and that statements made by the German government to the effect that it is organized by the American federation of labor are false and unfounded.

He replied:

"I could not think of it on account of the water. I was there a few days ago looking over the situation."

I write the above because a lad called at my door the other day with some cards to sign with a Mr. Henderson's name on the bottom. After he had explained himself I asked him not to come back to reply that I was a taxpayer and glad to pay more. He could not get good city water and positively refused to sign anything to injure my town as I felt it would. He left with the words that half of the people of Tulsa would move away, which is silly propaganda.

I have traveled quite a bit and am so tired of hearing people say,

"The water is so bad."

Another spring in the lawn was nearly raised and my flowers completely by a shortage of water last year. Intense heat and no water to throw on porch or house to relieve intense discomfort. So much suffering among those ill and those made ill from it could use the hose only between 9 o'clock and midnight.

No shallow hole of water for this family.

We have lived here for a few years and had to pay taxes on the present water system and would rather pay more and have it over for we have no desire for a repetition of former things.

The amount of water bills from the bottled water would exceed the tax and perhaps you remember the examinations and reports showed that the water bills were plenty fair in spite of the companies' water. Wouldn't it be fine to have pure, sparkling water straight from our hydrants, to drink and what a delight a bath would be in the clear water, and plenty to water the lawns and flowers, also to use for laundry so that we may have white clothes.

I honestly believe that nothing could be done that would benefit our city more than a splendid water system like we would have were we getting water from the Spavinaw.

A WOMAN TAXPAYER.

Howard Offers Osage Bill.

WASHINGTON, June 20.—Congressman Howard today introduced a bill conferring jurisdiction on the court of claims to hear, determine and render judgment in the Osage civilization fund claim of the Osage nation of Indians against the United States.

Morning services will be held at both churches as usual and each congregation will be addressed by its respective pastor.

Large audiences have attended the meetings, even though wet Wednesday when the rain interfered. The Rev. Johnson is assisted by the solo of the Rev. Hobbs.
